Dear Sir/Ma,

PROPOSAL FOR THE IMPLEMENTATION OF EXAMBOX CBT EXAMINATION SYSTEM FOR SCHOOL EXAMINATIONS AND THE 2026/2027 ACADEMIC SESSION

We write to formally introduce **ExamBox**, a Computer-Based Testing (CBT) platform that lets a school create and conduct its own examinations digitally. It covers continuous assessment, mid-term and terminal examinations, promotional examinations, entrance tests and other custom assessments. Teachers prepare papers from the school's own question bank, set subjects and time limits, and manage every examination session from one central dashboard — while candidates sit the exam on a familiar CBT screen with subject navigation, a countdown timer and secure submission.

Fully offline — no data, no internet, during the exam

- ExamBox runs on **one computer in your school** and talks to candidates over the **school's own Wi-Fi or LAN**. Nothing is sent to or loaded from the internet.
- **No data bundle is needed** — not for the school, and not for any student. Even if the network provider is down, the examination goes on.
- Internet is used only once, to activate the software, and occasionally for updates. There are no per-session or per-candidate fees.

We believe Goshen High School is committed to academic excellence and to giving its students a more efficient, secure and measurable examination process. ExamBox supports this with question randomisation, automatic submission when time expires, live monitoring of every candidate, instant scoring with per-subject breakdowns, and professional PDF and exportable result reports carrying the school's logo. It runs on a single school computer and supports up to **500 simultaneous candidates** using the school's existing Wi-Fi.

As an added benefit, the licence includes a curated library of over **60,000 JAMB/UTME past questions and practice materials** (1985–2025) that students can use for exam preparation alongside the school's own question bank.

₦600,000	₦400,000
First-time payment — includes training of school staff	Renewal per year, thereafter

Full features, system requirements and pricing details are on pages 2 to 4. We would be delighted to arrange a live demonstration at Goshen High School, at your convenience. Thank you for your consideration; we look forward to partnering with your esteemed school.

Yours faithfully,
For: **AREMU TECH EAZY SOLUTIONS**

ABOUT EXAMBOX®

Prepared by: Aremu Tech Eazy Solutions **Prepared for:** Goshen High School, Kubwa, Abuja **Version:** 2026-001

Comprehensive School Examination Platform. ExamBox enables the school to create, administer and evaluate its own digital examinations from a customised question bank — fully offline, with no internet or data needed during the exam. A single Windows PC acts as the exam server for up to **500 simultaneous candidates** over the school's existing network. The platform also includes more than 60,000 JAMB/UTME past questions and practice materials as an optional exam-preparation resource.

Why Offline Matters

- **No internet needed during exams.** Candidates connect to the school's server over local Wi-Fi/LAN only, so a poor or unavailable internet connection can never interrupt an examination.
- **No data cost.** Students and the school spend nothing on data bundles, and there are no recurring internet bills for exams.
- **More secure.** Questions never leave the school network, reducing leakage, and answers are saved on the school's own computer.

The Problem It Solves

Most candidates sit the UTME having never touched a real CBT interface. Paper mocks do not replicate the pressure of an on-screen timer, digital navigation or the submit button. Café alternatives are expensive, hard to supervise and expose candidates to distractions. ExamBox solves these problems in one affordable, school-controlled solution.

Key Features

- ✓ Custom school exams for CA, terminal, entrance and promotional assessments
- ✓ Randomised questions and answer options per candidate
- ✓ AES-encrypted question delivery
- ✓ Save & Resume — reconnect mid-exam
- ✓ Bulk result export across sessions
- ✓ Works on phones, tablets and PCs through a web browser
- ✓ School question bank with optional 60,000+ JAMB/UTME practice questions
- ✓ Live real-time candidate monitoring dashboard
- ✓ Tab-switch detection & fullscreen enforcement
- ✓ Instant results with per-subject score breakdown
- ✓ School branding on login screen & PDFs
- ✓ Optional branded school portal for access, administration and results
- ✓ Dark and light themes for the dashboard
- ✓ Fully offline — no internet during the exam
- ✓ Per-candidate battery level & connection status
- ✓ Auto-submit when timer expires
- ✓ Professional PDF result reports with school logo
- ✓ Supports up to 500 simultaneous candidates

Why Schools Choose ExamBox

- No data bundles, no per-candidate or per-session fees
- Candidates use phones or any modern browser device — no computer lab required
- Retake management: approve individual or bulk retakes
- Compatible with existing school networks — no specialised hardware
- Administrators monitor every candidate live, broadcast messages and force-submit at any time

Implementation & Renewal Pricing

Item	Amount	What it covers
First-time implementation licence	**~~₦600,000~~**	ExamBox CBT system, school question bank setup, optional 60,000+ JAMB/UTME practice materials, school branding, installation, custom examinations, results, monitoring, technical onboarding and **training of the school staff**
Annual renewal	**~~₦400,000~~** per year	Keeps the system active; includes software updates and technical support

First-time payment of ~~₦600,000~~, then renewal of ~~₦400,000~~ yearly. There are no per-candidate or per-exam charges, and **no internet data is required to run examinations** — only the school's local Wi-Fi/LAN.

Custom Question Bank

Goshen High School can load its own questions into ExamBox and create complete school examinations. The optional JAMB/UTME practice library can be used alongside the school question bank, including:

- Continuous Assessment (CA) tests and quizzes
- Mid-term, terminal and end-of-term examinations
- Promotional and entrance examinations
- Subject-specific examinations using internally developed questions

School Portal & Custom Exam Services

A branded Goshen High School portal can be arranged as part of implementation. It gives administrators, teachers and candidates separate access, with tools to create exam sessions, upload questions, assign classes and subjects, set time limits, monitor candidates, publish results and keep student performance records.

Exam configuration, portal branding, user roles, result access and reporting will be agreed with the school during onboarding and tailored to its academic calendar.

Offer for the 2026/2027 Academic Session

The first-time payment includes priority onboarding, complimentary setup assistance and training of the school staff. Renewal is due annually at **~~₦400,000~~**.

System Requirements

Server computer (host) — one PC runs the entire exam

Component	Minimum	Recommended
Operating System	Windows 10 (64-bit)	Windows 11 (64-bit)
Processor	Intel Core i5	Intel Core i7 or higher
RAM	8 GB	16 GB or more
Storage	2 GB free	SSD recommended
Installation	Single .exe — no separate .NET runtime or installer required	

Candidate Devices — No App Installation Required

Candidates connect using any device with a modern web browser on the same network:

- Windows PC or laptop (Chrome, Edge, Firefox)
- Android phone or tablet (Chrome)
- iPhone or iPad (Safari, Chrome)
- Any device with a modern browser — minimum 2 GB RAM

Network Requirements

- Wi-Fi router or Ethernet LAN switch — all devices on the same local network
- **No internet or data connection is needed during the exam session**
- Internet is only required for initial software activation and updates

Supported Candidate Capacity

Candidates	Minimum Server Specification	Note
1 – 100	Core i5, 8 GB RAM minimum	Weaker machines (e.g. Core i3 or 4 GB RAM) may run slowly
101 – 300	Core i5 or i7, 16 GB RAM	Less than this may slow down under load
301 – 500	Core i7 or i9, 16 – 32 GB RAM	32 GB recommended for a full 500 candidates

Deployment Options

- **Smartphone-based:** candidates use personal smartphones over the school Wi-Fi — no computer laboratory required
- **Computer laboratory:** Ethernet LAN for maximum stability with desktop PCs
- **Hybrid setup:** a mix of phones, tablets and computers in the same session

ExamBox supports up to 500 simultaneous candidates on appropriately configured hardware, suiting both small tutorial centres and large secondary schools. It ships as a single self-contained executable — simply install and run.

Note: *Available deployment options and custom question bank features depend on the selected licence.*

Disclaimer: ExamBox is an independent software product developed by Aremu Tech Eazy Solutions for school examinations, educational assessment and examination preparation. It is not affiliated with, endorsed by, sponsored by, or approved by the Joint Admissions and Matriculation Board (JAMB) or any Nigerian government agency. References to JAMB, UTME and related examination names describe an optional practice-question feature only and do not imply any affiliation, endorsement, sponsorship or approval.
